Contents of Volume 17

No. 1, 2

Introduction v

P. Piot, R. Colebunders, M. Laga, J.O. Ndinya-Achola, G. van der Groen and F.A. Plummer (Belgium, Zaire, Kenya and Canada)
AIDS in Africa: a public health priority (JVM 00623) 1

J.A. Hellings, H. Theunissen, W. Keur and A. Siebelink-Liauw (The Netherlands)
New developments in ELISA verification of anti-HIV screening of blood donors (JVM 00622) 11

J. Goudsmit, J.M.A. Lange, W.J.A. Krone, M.B.M. Teunissen, L.G. Epstein, S.A. Danner, H. van den Berg, C. Breederveld, L. Smit, M. Bakker, F. de Wolf, R.A. Coutinho and J. van der Noordaa (The Netherlands and U.S.A.)
Pathogenesis of HIV and its implications for serodiagnosis and monitoring of antiviral therapy (JVM 00621) 19

G. Van der Groen, G. Vercauteren and P. Piot (Belgium)
Immonofluorescence tests for HIV antibody and their value as confirmatory tests (JVM 00634) 35

S. Zolla-Pazner, A. Pinter and H. Mizuma (U.S.A.)
Potential use of serotherapy in the prevention and treatment of infection with the human immunodeficiency virus (JVM 00620) 45

F. Barin, F. Denis, A. Baillou, G. Leonard, M. Mounier, S.M.'Boup, G. Gershy-Damet, A. Sangare, P. Kanki and M. Essex (France, Senegal, Ivory Coast and U.S.A.)
A STLV-III related human retrovirus, HTLV-IV: analysis of cross-reactivity with the human immunodeficiency virus (HIV) (JVM 00632) 55

F.-J. Ferdinand, F. Dorner and R. Kurth (F.R.G and Austria)
Perspectives of HIV vaccine developments (JVM 00630) 63

Y. Ghendon (Switzerland)
Perinatal transmission of hepatitis B virus in high-incidence countries (JVM 00637) 69

R.Y. Dodd and N. Nath (U.S.A.)
Increased risk for lethal forms of liver disease among HBsAg-positive blood donors in the United States (JVM 00635) 81

L. Matthyssen, A. Arndt-Hanser, W. Lange, G. Maass, K. Schütt, A. van Loon and G. Wolters (The Netherlands and F.R.G.)
An enzyme-immunoassay for antibodies against hepatitis B core antigen: characteristics and clinical validation (JVM 00625) 95

D. Richard (France)
The usefulness of surrogate markers anti-HBc and ALT for post-transfusion non-A, non-B hepatitis pervention (JVM 00638) 105

A.J. Zuckerman (U.K.)
Screening of antiviral drugs for hepadna virus infection in Pekin ducks: a review (JVM 00633) 119

H.W. Doerr (F.R.G.)
Cytomegalovirus infection in pregnancy (JVM 00624) 127

L. Grillner (Sweden)
Screening of blood donors for cytomegalovirus (CMV) antibodies: an evaluation of different tests (JVM 00636) 133

F. Wielaard, J. Scherders, C. Dagelinckx and P. Gausset (The Netherlands and Belgium)
A one-step enzyme-linked immunosorbent assay to detect anti-CMV antibodies; development and clinical validation (JVM 00627) 141

F. Wielaard, A. Denissen, L. van der Veen and I. Rutjes (The Netherlands)
A sol-particle immunoassay for determination of anti-rubella antibodies; development and clinical validation (JVM 00631) 149

J.M. Middeldorp, A.M. Hooymans, A.J.H.F. Kocken, A.M. van Loon, J.A. Emsbroek and R.A. Coutinho (The Netherlands)
A sensitive enzyme-linked immunosorbent assay for the detection of herpes simplex virus antigens (JVM 00628) 159

M.J. Anderson (U.K.)
Human parvovirus infection (JVM 00629) 175

J.W. Almond, G.D. Westrop, D.M.A. Evans, G. Dunn, P.D. Minor, D. Magrath and G.C. Schild (U.K.)
Studies on attenuation of the Sabin type 3 oral polio vaccine (JVM 00626) 183

No. 3,4

L.T.M. Figueiredo and R.E. Shope (U.S.A.)
An enzyme immunoassay for dengue antibody using infected cultured mosquito cells as antigen (JVM 00609) 191

A. Caruso, L. Terlenghi, R. Ceccarelli, R. Verardi, I. Foresti, G. Scura, N. Manca, C. Bonfanti and A. Turano (Italy)
Liquid competition radioimmunoassay for the detection and quantitation of the HIV p24 (JVM 00610) 199

S.A. Siegel, J.E. Hutchins and D.J. Witt (U.S.A.)
Purification of adenovirus hexon by high performance liquid chromatography (JVM 00613) 211

I.C.P.P. Frugulhetti, C.C. Tavares and M.A. Rebello (Brazil)
Selective inhibition of protein synthesis by hypertonic medium in Marituba (Bunyaviridae) virus-infected L-A9 cells (JVM 00612) 219

C.H. Calisher, P. Auvinen, C.J. Mitchell, C.M. Rice, V. Hukkanen and T. Hyypiä (U.S.A. and Finland)
Use of enzyme immunoassay and nucleic acid hybridization for detecting Sindbis virus in infected mosquitoes (JVM 00611) 229

D.S. Healey, J.B.M. Jowett, F. Beaton, W.J. Maskill and I.D. Gust (Australia)
Comparison of enzyme immunoassay and reverse transcriptase assay for detection of HIV in culture supernates (JVM 00614) 237

A.-L. Clayton, Z.I. Albert and S.M. Chantler (U.K.)
The selection and performance of monoclonal and polyclonal anti-respiratory syncytial virus (RS) antibodies in capture ELISAs for antigen detection (JVM 00615) 246

G. Adam, P. Heegard, T.C. Bog-Hansen and K.-W. Mundry (F.R.G. and Denmark)
Lectins as probes for the assay of rhabdovirus infections in plants (JVM 00616) 263

M.A. Rezaian and L.R. Krake (Australia)
Nucleic acid extraction and virus detection in grapevine (JVM 00617) 277

D.J. Witt and E.B. Bousquet (U.S.A.)
Cryogenic preservation of virus-infected cells used as immunofluorescent assay substrates (JVM 00618) 287

Y. Nishibe, Y.K. Inoue and J.L. Melnick (Japan and U.S.A.)
Factors influencing the assay of Inoue-Melnick virus (JVM 00619) 293

J.K.K. Li (U.S.A.)
Chromatographic purification and immunological analysis of viral polypeptides of mouse mammary tumor virus (JVM 00639) 299

H.P. Janssen, A.M. van Loon, M.J. Meddens, P. Herbrink, J. Lindeman and W.G.V. Quint (The Netherlands)
Comparison of in situ DNA hybridization and immunological staining with conventional virus isolation for the detection of human cytomegalovirus infection in cell cultures (JVM 00640) 311

A. Abramowitz, G. Arad, N. Livni, A. Morag and I. Tamir (Israel)
Rapid isolation and identification of reovirus-3 (JVM 00554) 319
